

P2.1

Pattern Blocks station

Have privacy folders at this station. You can easily make these by stapling 3 manila folders together.

Have partners each build a repeating pattern (three to five elements) behind their privacy folder.

Then have them lift their folders. The partners take turns to:

- orally tell what the core of the pattern is;
- extend their partner's pattern;
- compare the core of their pattern with that of their partner's.
