

# Division Board Game

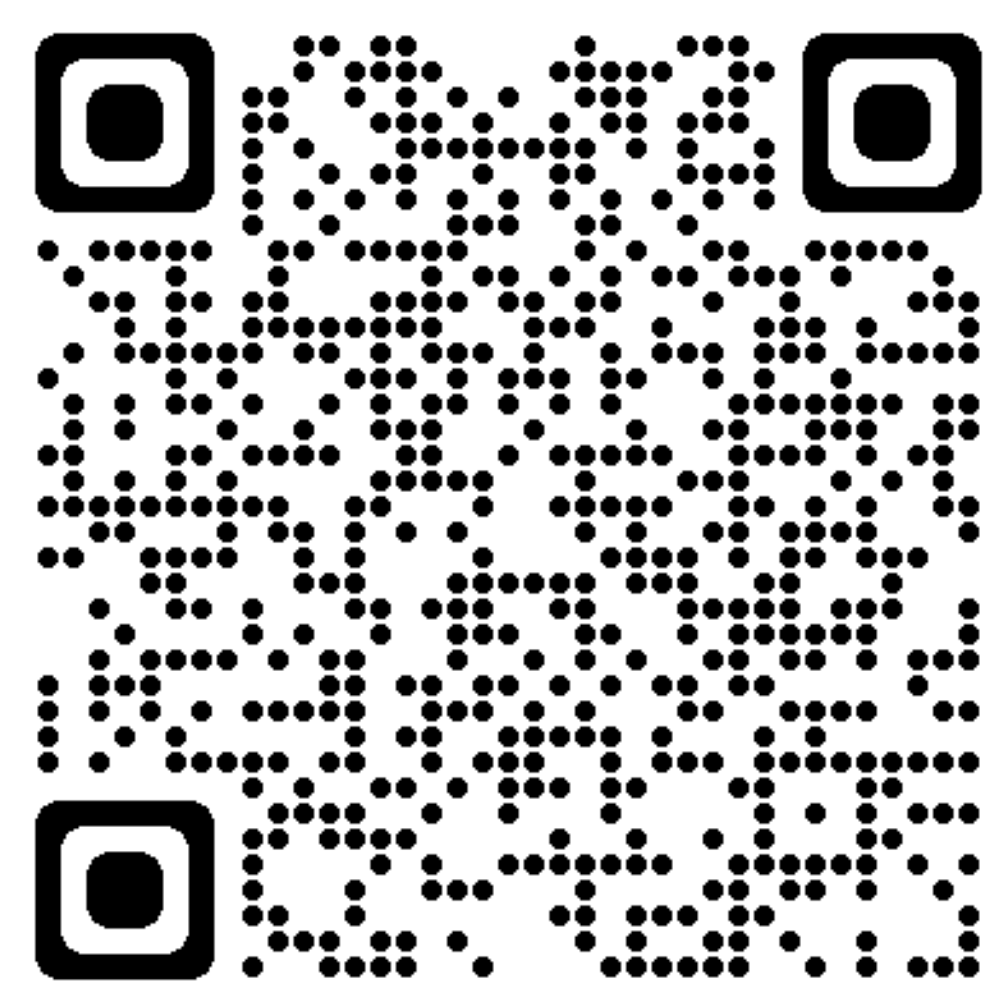

# How to play division board game?

You can play division game with your child  
or kids can play together.

This board game includes also several multiplication tasks.

Do not play division board game with preschool babies.

- Place the board game in the center of the play area: you can put the printed board on the table or even on the floor.
- All players place their game piece on START position.
- Each player rolls the dice and the player with the highest roll has the first turn.
- Players will take turns rolling the dice and moving forward that number of spaces.
- The player must then correctly answer the division problem on that space.
- If they are correct, they can stay on that space.
- If her/his answer is wrong, the player must go back to the previous position.
