

1. Roll the die and write the number in one of the spaces on your board.
2. Continue to roll and add numbers to make true equations and inequalities.
3. If you can't fill in a space with the number you rolled, you lose your turn.
4. The first player to fill in all the spaces or the player with the most equations/ inequalities completed with the game ends wins.

Name: _____

Squeeze Play

1 Roll the number cube and write the number in one of the spaces on your board.

2 Continue to roll and add numbers to make true equations and inequalities.

3 If you can't fill in a space with the number you rolled, you lose your turn.

4 The first player to fill in all the spaces or the player with the most equations/inequalities completed when the game ends wins.

2 + 2 = 1 + 3

+ < 4 + 2

+ > +

4 = +

< +

> +
