Five in a Row

Roll the red and purple dice. Subtract the number on the purple die from the number on the red die. Look for the answer on the board below. If you find the answer, cover it with a counter. The first player to get 5 in a row wins!

265	143	75	426	323
458	659	478	549	189
368	292	554	455	536
446	565	364	257	344
370	496	534	254	247

Five in a Row

Roll the two dice. Add the numbers you roll together. Find your answer on the board below. Cover your answer with a counter. The first player to get 5 in a row wins!

948	1,041	1,135	1,121	667
1,196	758	1,382	854	1,097
1,004	945	1,331	1,326	813
1,168	1,077	719	1,264	1,139
910	1,039	1,308	942	1,422
